

Prabhjot Singh

Front-end Developer

Indore, Madhya Pradesh • 8319529131 • singh20prabh@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

SUMMARY

Innovative Front-end Developer with over one year of experience designing and implementing responsive, scalable, and dynamic web applications. Skilled in **React.js**, **Next.js**, **Tailwind CSS**, and **Redux.js**, with a strong focus on enhancing user experience and operational efficiency. Proven track record in leading teams, collaborating across disciplines, and delivering high-quality digital solutions on time. Passionate about building user-focused interfaces that align with business objectives.

PROFESSIONAL EXPERIENCE

BEYONDRIFFS

Ghaziabad, Uttar Pradesh

Front-end Developer

03/2024 – 01/2025

- Developed highly responsive and interactive user interfaces using **React.js** and **Tailwind CSS**.
- Built a dynamic musical website with **Next.js**, improving site navigation and performance.
- Mentored a team of junior developers and interns, enhancing team productivity and adherence to best practices.
- Collaborated with back-end developers working in **Python Django** and **Node.js** to optimize API performance and integration.

BAOIAM INNOVATIONS PVT LTD

Noida, Uttar Pradesh

Website Developer Intern

10/2023 – 02/2024

- Led coordination for a large-scale project involving 120+ developers, showcasing exceptional leadership and task management skills.
- Enhanced website performance and user experience through responsive front-end solutions.
- Ensured code quality and maintainability by conducting comprehensive reviews and adhering to best practices.
- Collaborated cross-functionally to meet project deadlines and objectives.

PROJECTS

Haven-Website: <https://the-haven-website.vercel.app/>

- Built a boutique hotel booking platform using **Next.js**, **Tailwind CSS**, **Auth.js**, and **Supabase** for backend integration, enabling users to explore and book cabins dynamically based on guest count and stay duration.
- Integrated robust APIs and designed an intuitive, user-friendly interface showcasing advanced UI/UX skills to enhance user engagement and accessibility.

Haven-Staff-Portal: <https://haven-staff.netlify.app/login>

- Developed an internal hotel management application with **React.js**, **Styled Components**, **React Query**, and **Charts.js**, providing staff with tools for managing guest bookings, check-ins, and check-outs efficiently.
- Implemented features like room availability tracking, status management, dark mode, and a dashboard for visual analytics, improving operational efficiency and usability.

Zentry: <https://zentry-lake.vercel.app/>

- Developed **Zentry**, an immersive gaming website using **React.js**, **Tailwind CSS**, and **GSAP** for dynamic animations and interactive elements.
- Implemented a fully **responsive design** with engaging animations, including an interactive hero section allowing users to change background videos.
