- The key features used in project are: React Router, Redux, Redux Toolkit, Thunks, Tailwind CSS.

## WORK EXPERIENCE

### Web Developer

#### Baoiam Innovatives Pvt Ltd

10/2023 - Prese

Noida, India

#### Achievements/Tasks

- As a Front-end developer, I actively contribute to the creation of a feature-rich site using front-end technology's like HTML, CSS(Tailwind CSS), and JavaScript(React.js).
- Simultaneously, I lead a collaborative Team, setting the project vision, allocating tasks, and ensuring effective communication.
- Balancing technical proficiency with leadership, I troubleshoot issues, manage timelines, and foster a productive work environment.
- This dual role allows me to refine skills while guiding the team to create a impactful online presence.
